Julian Hamilton
1999 - Present (Career)
Project/Field Manager

Mr. Julian Hamilton serves as Dennis Corporation's Project/Field Manager in the Structural and Industrial Division. Mr. Hamilton is certified by the National Welding Society and can provide NDT services. He has ten years of experience in multiple service areas including: commercial buildings, industrial process support, nuclear power generation QA/QC, cellular and broadcast towers, fossil fuels power, generation QA/QC, petrochemical/refinery QA/QC, schools and government buildings, civilian military contractors and residential construction.

Mr. Hamilton's specific project experience includes:

- ❑ **World Trade Center, Tower 4, New York, NY**— Serving as Lead QA/QC/NDT Inspector, Mr. Hamilton will be responsible for the supervision and performance of shop fabrication inspections of the steel to be used in the construction of Tower 4 in the World Trade Center Replacement Project.
- ❑ **Harlem Hospital New Addition, New York, New York** - Mr. Hamilton duties included performing ongoing NDT inspections and visual inspections of welds for an addition to Harlem Hospital located in New York, NY.
- ❑ **Jones Tract Elementary, Beaufort, SC**— Mr. Hamilton assisted in managing the necessary Chapter 1 and Chapter 17 Special Inspections, and ensured materials were obtained and disposed of per LEED certifications.
- ❑ **Beaufort Middle School, Okatie Elementary, Port Royal Elementary, and Mossy Oaks Elementary, Beaufort, SC**— Mr. Hamilton is providing assistance with Chapter 1, Chapter 17, and OSF inspections for additions and renovations to existing schools, as well as managing inspectors throughout the project.
- ❑ **Lakeview Elementary, Hodges Elementary and Oakland Elementary, Greenwood, SC** - Mr. Hamilton is assisting with all Chapter 1 and 17 Special Inspections as well as managing inspectors throughout the project. Responsibilities also include sound engineering decisions in the field related to existing unsuitable soils and storm water inspections.
- ❑ **Chapin Middle School, Chapin, SC** - Current responsibilities include the assistance with inspection and testing of concrete footings and sidewalks, block fill, steel inspections, and excavation of unsuitable soils, fill placement and compaction of suitable material for bus driveways and teachers parking lots.
- ❑ **Calhoun County SCDHEC Storm water Inspections, St. Mathews, SC**— Mr. Hamilton is assisting in performing all necessary inspections and reporting to SCDHEC as required for one new school in St. Mathews and renovations to Sandy Run Elementary.
- ❑ **AC Flora High School Phase 3, Columbia, SC**— Mr. Hamilton is assisting with the Chapter 1 and 17 Special Inspections for this project. Responsibilities also include sound engineering decisions in the field related to existing unsuitable soils.

Prior to joining Dennis Corporation, Mr. Hamilton's work experience included:

- ❑ **Lake Murray Steel Inspection, Inc., Structural Steel NDT Inspector**
 - Subcontract Project Manager of QA/QC functions to Skanska on the Meadowlands Stadium in New Jersey serving the NFL Jets & Giants.

- Certified ASNT SNT-TC-1A NDT Level II Visual Inspection (VT), Magnetic Particle (MT), Liquid Penetrate (PT), Ultrasonic Testing (UT) shear wave and thickness (submersion inline and contact) inspection of spiral pipe welds
- Performed pre-fabrication shop source inspections and audits consisting of paint inspection, dimensional verification, weld inspection, NDT, and Quality Control functions.
- Paint Inspections to SSPC and NACE specifications.
- Work with ASME Section III,V,VIII, IX ,NQA-1, AWS D1.1,D1.5 API codes.
- Experience performing inspection and audits in fabrication shops and Construction Management on field construction projects. Also in laboratory testing in association with welder and procedure qualifications.

□ **GS2 Engineering, Inc., Structural Steel and NDT Inspector**

- Certified ASNT SNT-TC-1A NDT Level II Visual Inspection (VT), Magnetic
- Performed pre-fabrication shop source inspections and audits consisting of paint inspection, dimensional verification, weld inspection, NDT, and Quality Control functions.
- AWS D1.1, D1.2, D1.3, D1.5, and D1.6 experience
- Worked with ACI and also International Building Code.
- ASME Sections IX welder qualifications, B31.1, B31.3.
- Extensive project experience in commercial construction, light to heavy industrial shutdowns including boiler inspections, and power piping

Certifications and Training

- ⇒ AWS CWI # 08011011, 2008
- ⇒ NDT ASNT SNT-TC-1A Certified level II MT, UT, PT, VT, UTT
- ⇒ Kraut Kramer UT TRAINED LEVEL 1 AND LEVEL 2
- ⇒ Hobart Institute of welding technology 80hr of formal training in welding technology
- ⇒ American Welding Society 40hr of formal training for Certified Welding Inspector
- ⇒ Real Educational Services class on Welding Procedure Fundamentals
- ⇒ Real Educational Services class on Advanced visual weld inspection
- ⇒ USMC Advanced NBC training
- ⇒ USMC Hazmat training
