Mr. Heyward Mattox
Dennis Corporation
1800 Huger Street
Columbia, SC 29201

Dear Mr. Mattox,

On behalf of the Richard Winn Academy, I would like to personally commend you on the professional level of inspection services that Dennis Corporation has provided our school over the past year. As a Richard Winn Academy administrator, I am grateful for the guidance Dennis Corporation has given us in regards to our spectator stands.

Perhaps the most important job in working in education is ensuring the safety of all students and families when they attend a school-sponsored event. Dennis Corporation, and its knowledgeable employees, evaluated and made recommendations for our stands in an effort to make them safer for all those who use them. Your company's sound inspection services and your whole-hearted approach to supporting your clients have made Dennis Corporation an extraordinary company to work with.

Thank you again for the professionalism you and your highly qualified staff have shown on this project. I would recommend Dennis Corporation to anyone who values timeliness, trustworthiness, and quality of work. Should the Richard Winn Academy require any additional inspection or engineering services, I can assure you that Dennis Corporation will be atop our list.

Sincerely,

Anthony Caulder
Richard Winn Academy
