

Fairfield County  
Transportation Committee

September 27, 2006

Mr. Dan Dennis PE, PLS  
President  
Dennis Corporation  
5000 Thurmond Mall, Suite 114  
Columbia, South Carolina 29201

Dear Mr. Dennis:

The Fairfield County Transportation Committee would like to express our gratitude to your company for the professional level of service that you are providing for the citizens of Fairfield County. We are pleased with the prompt response to our needs from your staff.

The 2006 Road Improvement Program and the Moultrie Street Sidewalk are two major projects that your firm went to work on immediately. Your firm worked with the SCDOT to obtain the encroachment permits, provided cost estimates, developed project specifications and plans, meet with the utility companies for possible conflicts, bid each project, provided recommendations for award, provide public notice brochures, performing the construction inspection and verifying the contractors pay request. We are very pleased with the successful award of these two projects and the progress of these projects.

On Monday, September 25, 2006, we held a ribbon cutting ceremony for the newly completed sidewalk on Moultrie Street. I was impressed with the workmanship and manner in which Dennis Corporation managed this project. This sidewalk will join several communities to the existing shopping center and provide a safer walkway for school children.

As Chairman of the Fairfield CTC, I have to provide answers questions from many citizens on a daily basis. Your firm's personnel keep me abreast of any situations and/or problems that are accruing in order for me to explain and answer each citizens concern. We look forward in having many successful projects in our on-call contract with the Dennis Corporation. If there is anything you need from our committee, please don't hesitate in asking.

Sincerely,

James McGraw  
Fairfield CTC Chairman
