

L.B. Cannon Named Manager of Dennis Corporation's New Chester Office

Chester, SC - Dennis Corporation, a South Carolina licensed civil engineering, surveying and construction management firm, is pleased to announce the opening of a new office in Chester County, South Carolina. The new office will be located at 142 Gadsden Street. Mr. L.B. Cannon, former SCDOT Chester County Resident Maintenance Engineer, has been named Dennis Corporation's Chester Office Manager. "As Dennis Corporation continues to strive to provide the best service to our clients, selecting Mr. Cannon as our office manager was a natural choice. With his 38 years of service with Chester County, L.B. holds the respect of the residents, county, and SCDOT personnel, as well as the knowledge of the area to produce quality work for the City and County," said Mr. Dan Dennis, President of Dennis Corporation.

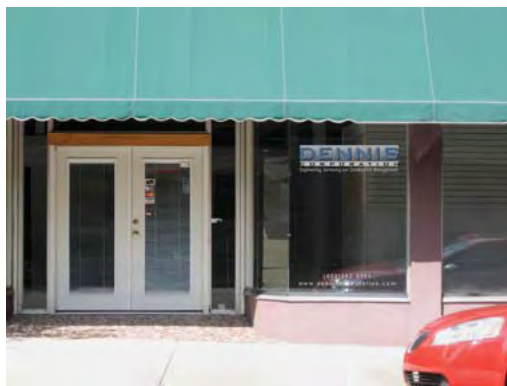

Opening this office maintains Dennis Corporation's core value of providing superior service to its clients through on-site management and a hands-on approach to construction management projects. The decision to open the office came after Dennis Corporation became the on-call Chester County and City of Chester's engineering consultant. Dennis Corporation sees this as a great opportunity and is very excited to expand in Chester County. As the County's and City's on-call engineering firm, this new office will give Dennis Corporation a permanent local presence allowing the County's construction management needs to be met quickly and efficiently.

Under the Chester County contract, Dennis Corporation will assist the County with a variety of engineering, surveying and construction management projects, some of which include the evaluation of existing conditions, planning improvements, developing standards and preparing construction plans and specifications for various civil engineering projects. More specific projects for the County might include construction inspection, county roadway design, drainage improvements, GIS mapping, surveying, and traffic engineering design assistance. Under the City of Chester Contract, Dennis Corporation will assist with a variety of different projects, some of which might include: city street design, construction inspection, drainage improvements, economic development projects, grant assistance, infrastructure inventory, roadway rehabilitation and resurfacing, sidewalk improvements, storm water planning, survey, and traffic engineering design assistance.

Dennis Corporation is a Columbia, South Carolina licensed civil engineering, surveying and construction management firm. Since inception in June 2005, Dennis Corporation has grown to employ forty-eight professionals whose specific fields of expertise include civil infrastructure, design, construction services, construction management, expert witness services, traffic engineering, transportation design, special projects and surveying.

Mr. L.B. Cannon will be the Manager of Dennis Corporation's Chester office.

Dennis Corporation's Chester office is located at 142 Gadsden Street.
