

DENNIS CORPORATION HOSTS FLEET PHOTO SHOOT

April 10, 2010

Columbia, SC - As Dennis Corporation prepares to celebrate its 5th anniversary, the firm took time out to memorialize a milestone achievement of the company by documenting its fleet of approximately 70 Ford trucks and SUVs. On Saturday, April 10th, Dennis Corporation employees gathered their trucks in the firm's corporate headquarters parking lot to take an aerial photo of all of its company vehicles. The aerial photo will be framed and displayed in their new corporate office on 1800 Huger St in Columbia, SC.

The significance of the photo resonates highly with every employee of the firm. Since its inception in 2005, Dennis Corporation has experienced exponential growth throughout South Carolina resulting in the hiring of one hundred and ten employees with most of them receiving a company vehicle upon employment. Due to the large numbers of projects the firm has throughout the Southeast, the trucks assist in making employees readily available to travel to projects while also promoting the firm wherever they go.

Dennis Corporation Construction Services Manager Tim Antley, one of the firm's original employees, stated, "Being with the company since its inception in 2005 and receiving one of the first Dennis Corporation trucks, it amazes me how much we have grown since then. To have a fleet of 70 vehicles that are constantly located throughout South Carolina is a true milestone in the firm's history."

Dennis Corporation Marketing Associate and Corporate Photographer, Kara DeFelice, conceived the idea of taking an aerial photograph, thinking it would give the best visual representation of the expansive company fleet.
