

DENNIS CORPORATION CELEBRATES THE U.S. NAVY'S BLUE ANGELS FLIGHT DEMONSTRATION

April 27, 2010

Mt. Pleasant, SC - On April 17 and 18, 2010, Dennis Corporation celebrated the U.S. Navy's Blue Angels Flight Demonstration with festivities held at the Charleston Harbor Resort and Marina in Mt. Pleasant. Dennis Corporation employees, clients and friends of the firm gathered to view the flight demonstration held on both days of the celebration. From a suite with views overlooking the marina, USS Yorktown, and the USS Clamagore, celebrants had an up-close view of the flight demonstration and the planes' aerobatic capabilities.

During the demonstration, which lasted approximately one hour, the Blue Angels demonstrate "choreographed refinements and graceful aerobatic maneuvers" including the four-jet Diamond Formation and the six-jet Delta Formation. Founded in 1946, the mission of the Blue Angels is to "enhance Navy recruiting, and credibly represent Navy and Marine Corps aviation to the United States and its Armed Forces to America and other countries as international ambassadors of good will." During the 2010 season, which runs from March until November, the Blue Angels are scheduled to perform 68 air shows across the United States.

Dennis Corporation Environmental Scientist, Mr. Marcus Sizemore said after seeing the demonstrations, "The Blue Angels were an awesome display of precision and modern technology that when seen in person is a reminder of how great of a nation we live in. It was a wonderful experience for Dennis Corporation staff and all our clients who were present."

The members of the 2010 Blue Angels Squadron include:

- Flying Blue Angel No.1 Commander Greg

The Blue Angels displayed precision while maneuvering during the air show.

Throughout the air show, the Blue Angels performed thrilling close maneuvers
