

DENNIS CORPORATION NAMED 6TH FASTEST GROWING ENGINEERING FIRM IN U.S.

August 24, 2010

Columbia, SC - Today, Dennis Corporation received notification of being named to *Inc.* magazine's 2010 Inc. 500|5000, recognizing America's fastest growing privately owned companies. Dennis Corporation was ranked the overall number 693 company on the list, placing the firm in the 86th percentile. Additionally, Dennis Corporation was ranked the number 6 fastest growing company in the engineering industry. Furthermore, in the state of South Carolina, Dennis Corporation was ranked the number 4 overall fastest growing company and ranked number 1 in Columbia. We are very proud of this achievement and excited to receive national recognition for all of the hard work the employees have put in to help grow the company.

The rankings are determined by compiling revenue numbers over a four year period to determine the percent growth of the company. Dennis Corporation revenues were submitted for 2006 and 2009, showing the consistent growth of the company. Over this period, Dennis Corporation had a **442% growth**. Being named to this list is the widest national recognition that Dennis Corporation has ever received. Additionally, with the continued dedication of all of the employees of Dennis Corporation, we hope to remain on this list for many years to come. Dennis Corporation Director of Marketing, Monica Scott, said this about the honor, "We are so excited about this achievement. We are in an economy where it is very difficult to keep a business open, and as a certified small business enterprise, our growth is outstanding. It is a wonderful thing to have our success recognized on a national level."

Dennis Corporation is a South Carolina licensed civil engineering, surveying and construction management firm. Dennis Corporation's specific fields of expertise include aviation engineering, civil

infrastructure, construction management, construction services, environmental services, expert witness, geotechnical engineering, intelligent transportation systems, program management, special projects, surveying, traffic engineering, transportation engineering and water resources.
