

DAVID RUSSELL NAMED DIRECTOR OF ROADWAY DESIGN AND CIVIL INFRASTRUCTURE

October 7, 2011

Columbia, SC – Dennis Corporation is proud to announce that David Russell, PE, has accepted the position of Director of Roadway Design and Civil Infrastructure.

A Dennis Corporation Senior Roadway Design Engineer since July 2008, Mr. Russell has fifteen years of industry experience and will oversee the planning and design of all Dennis Corporation civil infrastructure and transportation projects.

“I am honored to become a Director for Dennis Corporation,” said Mr. Russell. “I will use my extensive experience to continue to grow the firm.”

Mr. Russell’s career in engineering includes projects throughout South Carolina, the United States and overseas. His extensive project experience in South Carolina includes the \$54,000,000 widening of SC 802 in Beaufort, SC, widening of US 17 throughout 22 miles of the environmentally sensitive ACE Basin in Beaufort and Colleton Counties, the recent widening of 6 miles of US 17 in Mt. Pleasant, SC, the widening of US 501 and its interchange with Carolina Bays Parkway in Horry County, SC, as well as many county roadways throughout SC. He has also served as the project engineer for the design/build of a 16 mile widening of the Natchez Trace Parkway in Natchez, MS and the design/build of the I-85 BMW Interchange in Greer, SC. His worldwide experience has included overseeing the roadway planning, design and coordination of roadway plan production for the relocation of 4km of the Dead Sea Highway for a 273-hectare industrial park in Aqaba, Jordan.

Dennis Corporation Vice President, Mr. Frank Hribar, values Mr. Russell’s solid design skills and considers him a welcome addition to the firm’s management team. “I have managed several construction projects that David has designed and I appreciate his common sense approach that allows projects to be built economically, quickly and accurately.”

Mr. Russell is a Registered Professional Engineer in the state of South Carolina and a graduate of The Citadel with a B.S. in Civil Engineering. He maintains memberships in The Citadel Alumni Association, The Citadel Club of Lexington and American Society of Civil Engineers.

Dennis Corporation is a licensed civil engineering, surveying, and construction management firm. Dennis Corporation’s specific fields of expertise include water, sewer, roads, bridges, buildings, airports and other infrastructure.
