Mr. Dan Dennis  
Dennis Corporation  
5000 Thurmond Mall, Suite 114  
Columbia, SC 29201

Dear Mr. Dennis:

I would like to commend you and your staff for the professional service and innovative design and construction techniques you have developed for the Fairfield County Transportation Committee, including the 2006 and 2007 Road Improvement Program and the West Moultrie Sidewalk Project.

Throughout the process of developing the Road Improvement Programs, Dennis Corporation's staff kept the citizens of Fairfield County informed of changes to the County's infrastructure and sought input from various County leaders and organizations on improving the County's unpaved roadways. I would personally like to thank your firm for its efforts to increase public awareness for these projects.

Your staff also provided innovative cost savings designs that enabled Fairfield County's Transportation Committee to stretch its dollars further, allowing more County roadways to be paved. This is especially important considering the rapid rise in construction costs experienced in the transportation industry.

I look forward to the continued success of the CTC Program, the economic development generated from it and the improved quality of life it will bring to the citizens of our County.

Sincerely,  

Creighton B. Coleman
